## Profile

Experienced web developer with expertise in front-end and back-end, mastering HTML, CSS, JavaScript, PHP, and Laravel. Skilled in designing responsive interfaces and building efficient backend systems. Experienced in projects such as car booking sites, company profiles and port management system, with a focus on user experience and intuitive admin features.

## Education

**S1 - Sistem Informasi**  **Aug 2020 - Sep 2024**
ITB STIKOM BALI, Denpasar
IPK 3,83

## Work Experience

**Web Developer & UI/UX Designer**  **Jun 2022 - Dec 2022**
Paw Tour & Rent Car Bali, Denpasar
My team and I made a car rental booking website. As a ui/ux designer, I make designs and prototypes using Figma before it will be sliced by the frontend developer. on the backend i created an admin panel using Laravel.

**Web Developer**  **Sep 2022 - Nov 2022**
RPM Surfshop, Denpasar
I created a company profile website called freepigmovement.com using HTML CSS Javascript and Bootstrap. Where this website contains surfboard boards for sale and also surfboard accessories. and also some information from the company.

**Intern**  **Mar 2023 - May 2023**
Bank Indonesia Provinsi Bali
I support Bank Indonesia's operations by managing archives, monitoring industrial downstreaming, serving as a librarian, and assisting in the scholarship selection process. Through professional guidance, I gain practical insights into its operations.

**Web Developer**  **Oct 2024 - Dec 2024**
Pelabuhan Serangan, Denpasar
I created a landing page website pelabuhanserangan.com and a ship, passenger and operator management system using laravel framework.
